

# Jordyn Yee

Boston, MA | Wilton, CT | (203) 399-3130 | [yee.jo@northeastern.edu](mailto:yee.jo@northeastern.edu)

[LinkedIn](#) | [GitHub](#) | [Personal Website](#)

Availability: May 2026 – December 2026

## Education

**Northeastern University** | Boston, MA

*Sept. 2023 – May 2027*

John Martinson Honors College

*GPA: 3.91/4.00*

Khoury College of Computer Sciences

*Candidate for Bachelor of Science in Computer Science, Concentration in Human Centered Computing*

**Coursework:** Web Development | Human Centered Interaction | Algorithms and Data

Theory of Computation | Object Oriented Design

**Honors:** Dean's List | Northeastern Honors Scholarship

## Computer Knowledge

**Languages:** Java | TypeScript | CSS | HTML | JavaScript | Python | C | Assembly

**Frameworks & Libraries:** React | Tailwind CSS | React Native | Node | Next | Vue | Express

**Tools & Platforms:** GitHub | Git | Figma | VS Code | Docker | Postman | MongoDB

## Work Experience

**Thinkstruct (Link Ventures)** | Cambridge, MA

*Sept. 2025 – Dec. 2025*

*Front-End Software Engineer*

- Joined seed-stage startup, scaling patent comparison MVP into a multi-page document analysis platform
- Built out core UX features including a navigation system, user session management, and activity tracking
- Optimized application performance by implementing TanStack Query for server state management

**Ticker** | Boston, MA

*May 2025 – Aug. 2025*

*Front-End Mobile App Developer*

- Lead the frontend refactor of a mobile MVP to improve scalability and modularity, enabling faster and more maintainable feature development
- Collaborated with a fast-paced startup team to test, debug, and enhance product performance
- Gained hands-on exposure to full-stack development and cloud infrastructure

## Projects

**GraduateNU**

*Sept. 2025 – Present*

- Assists students in planning out their degree path through an intuitive interface built with Chakra UI
- Partnered with designers to implement a data analytics page from Figma designs and resolve UI bugs
- Improved major-search algorithm, cutting filtering runtime by 50%

**Recipez**

*Jan. 2025 – Apr. 2025*

- Built a social media application using React Bootstrap UI components for users to share and discover recipes
- Utilized Redux Toolkit for centralized state management, handling user authentication and recipe data
- Designed REST APIs with Express.js and managed a MongoDB user database

**Three Trios**

*Nov. 2024 – Dec. 2025*

- Implemented multiple versions of a 2-player card game using object-oriented principles
- Used the Java Swing library to create a working GUI for the game featuring separate screens for each user

## Extracurricular Activities

**Sandbox NU**

*Sept. 2025 – Present*

*Developer*

- Software consultancy led by students building both client and community-based software
- Collaborate with a 9-student team on GraduateNU and participate in club-run technical workshops

**Sigma Kappa Sorority**

*Oct. 2023 – Present*

*VP of Event Management*

- Supervise all social activities organized by the chapter and oversee the chapter calendar
- Act as a liaison between chapter and Sigma Kappa nationals regarding social events
